# Colorado
# Winter Park

The addition of an attractive new resort village centre, plus its continuing plans for development and investment, is putting Winter Park firmly on the map as a fully-fledged international ski destination. Its well-priced ski-in ski-out accommodation makes it a good choice for families and groups.

Winter Park has Colorado's best snowfall record and, during the week, you will have the slopes to yourself. The shops and restaurants in the old town of Winter Park are a 10 minute ride away on the free shuttle, which runs into the night.

## NEED TO KNOW

- ***Ski Safari option*** - do a twin-centre with Steamboat. The two resorts are within 2 hours of each other and are on the same lift pass. See page 12 for details.
- ***Great for families*** - kids ski free and the new intimate resort centre and excellent quality condos make this a great option for younger families looking for ease of access to the slopes.

## Zephyr Mountain Lodge

★★★★
